On-Site Project Superintendent, a working supervisor will be needed on site for 3 hours per day for 4 weeks per month for 6 months totaling (3*5*26)

Supervision is required by the CSLB license requirements that the Qualified licensee or a manager inspect every job site each day until complete. Supervision is not covered in Xactimate's O&P according to Xactimate's white pages. .

"Cal. Admin. Code tit. 16, § 823(a). "Direct supervision and control" "includes any one or any combination of the following activities: supervising construction, managing construction activities by making technical and administrative decisions, checking jobs for proper workmanship, or direct supervision on construction job sites.

Section 7068 requires every license to have a qualifier, which may be a Sole Owner, Qualified Partner, Responsible Managing Officer (RMO), Responsible Managing Employee (RME), Responsible Managing Manager or Responsible Managing Member. The qualifier is the person who is listed in the Contractor State License Boards' (CSLB) personnel of record, has demonstrated his/her knowledge and experience through the CSLB's licensing process, and holds one or more license classifications.

UPDATE: CSLB, CSLB to Get Tough on RMO Abuses (Summer 2014) Starting on January 1, 2014, amended Section 7068.1 of California's Contractors State License Law, Bus. & Prof. Code §§ 7200 *et seq.*, requires licensees' qualifiers to exercise direct supervision and control over the licensees' operations to ensure compliance with California's Contractors State License Law. The amended law contemplates active involvement by the qualifier, and makes a violation of Section 7068.1 grounds for disciplinary action and a misdemeanor punishable by imprisonment in a county jail and/or a fine.

DESCRIPTION	QTY	RESET	REMOVE	REPLACE	TAX	O&P	TOTAL
-------------	-----	-------	--------	---------	-----	-----	-------

The line item applies to the widow repairs per C-FIX.

Scope of work:
Fire Remediation & Restoration – Windows and Sliding Glass Doors (Labor Only) Fire remediation and restoration of ten (10) large windows and nine (9) sliding glass doors at 935 Chattanooga Ave, Pacific Palisades, CA 90272, affected by smoke and soot exposure. Process includes HEPA vacuum removal of soot and ash from frames, tracks and assemblies, wet neutralization to eliminate smoke film and odor, inspection and adjustment of roller assemblies for proper alignment and closure, silicone lubrication, and final operational verification. Work performed under insurance restoration protocols and post-fire remediation standards.

Materials and any component replacements are excluded and will be quoted separately via change order if required upon inspection.

Labor only.
Materials & replacements, if required, will be issued as a separate change order with photos. 90-day workmanship warranty.

426. Water heater - tankless - 5-5.9 gallon - Gas	1.00 EA		0.00	2,047.16	95.65	428.58	2,571.39
427. Angle stop valve	2.00 EA		0.00	46.42	2.43	19.04	114.31
The angle stop valve was replaced rather than reused due to the risk of failure associated with aging or previously disturbed plumbing components. Reusing an old valve can result in leaks or malfunction, especially after being shut off and turned back on during repairs. Replacement ensures a reliable seal, compliance with plumbing best practices, and minimizes future water damage risk.							
428. Plumbing fixture supply line	2.00 EA		0.00	23.71	1.32	9.74	58.48
